

Spirulina is Nature's Most Concentrated Superfood

— *AARP Magazine ranks Spirulina the #1 food that can add years to your life**
(*Sept / Oct 2006 issue)

- ⚙ Spirulina is the perfect energy food for people of all ages and lifestyles who want a whole food source of vitamins and other nutrients
- ⚙ Spirulina is 60% complete, easily digested protein, containing all the essential and many other amino acids
- ⚙ Spirulina contains more beta carotene than any other whole food, and natural beta carotene is ten times more easily assimilated by the body than synthetic beta carotene
- ⚙ Spirulina and mother's milk are the only whole food sources of GLA (Gamma Linolenic Acid)
- ⚙ Spirulina is rich in B vitamins, minerals, and enzymes
- ⚙ Spirulina is rich in phycocyanin, glycolipids, sulfolipids, RNA, DNA, and many other potentially important nutrients
- ⚙ Over 200 scientific studies and clinical trials indicate health benefits associated with the use of Spirulina

Who Takes Spirulina?

- Athletes • weight watchers • arthritis sufferers • people with digestive problems • convalescents • people with low energy • people who work hard
- anyone who is concerned about good, wholesome nutrition
